LIFE

SALCEDO AUCTIONS AND THE WELL-APPOINTED LIFE

Salcedo Auctions proudly celebrates the fourth year of The Well-Appointed Life, the largest fine art and collectibles auction event in the Philippines, as it takes up residence at the grande dame of Makati hotels, The Peninsula Manila, throughout September 2017.

What began as a vision to introduce auctions to a wider audience by bringing four sale categories together over one weekend - Important Philippine Art, Connoisseur Collection, Fine Jewelry & Timepieces, and Rare Automobiles - is today a month-long celebration dedicated not just to art and other valuable collectibles but also to the sensorial and intellectual experiences that come from being immersed in the world of auctions.

History and tradition are at the heart of Salcedo Auctions and The Well-Appointed Life. More than being simply about the acquisition of objects, the country's premier auction house presents this annual event as a way to rediscover value, and to preserve, protect and uphold the richness and diversity of cultural heritage in a most fitting venue.

MESSAGE

Ever since we pioneered the fine art and collectibles auction industry in the country eight years ago, Salcedo Auctions set out to bring world-class auctions to the Philippines, befitting the rising fortunes of the country and our place in the global art community.

Since that time, we have been very fortunate to see our work and perseverance bear fruit, with the continued growth of Salcedo Auctions and the increasing number of institutional partnerships that we have forged - all of which underscore the company's high standards, passion for excellence, and the trust and confidence that we enjoy at an international level.

To have accomplished all of these in a relatively short period of time is a blessing that we do not take lightly. Indeed, they serve both as an inspiration and as a challenge for Salcedo Auctions to scale even greater heights as a contributor to the nation's growth as a pioneer of the Philippine creative economy.

Please allow me to take this opportunity to thank all of those who have joined Salcedo Auctions on this resolute path: our co-presentors The Peninsula Manila and Santos Knight Frank, major partners Globe Platinum, Lexus, and Singapore Airlines, and premium audio partner Bowers & Wilkins - institutions that share our understanding of what it means to have, and what it takes to cultivate, a truly well-appointed life.

Karen Kua Lerma

President

Salcedo Auctions

MESSAGE

The Peninsula Manila has been a longtime supporter of the arts. Our association with the arts started on the day we opened our doors to our first visitors on September 14, 1976, and 41 years later today, as we celebrate the opening of The Well Appointed Life at The Peninsula.

Over the last 41 years, we have assembled a rather sizable collection by some of the most notable names in Philippine art. Why? Because it reflects the rich history and culture of the Philippines as a destination. This is in keeping with our ethos as a company, as part of The Peninsula Hotels. The Peninsula Manila was designed to embrace the local culture, style and history of the city and the country. It's important to us that a stay in our hotel forms an integral part of our guests' total experience of the Philippines and that it is rich in reference to local artwork, architecture and ambience.

It gives me great pleasure to partner with Salcedo Auctions as we share these same values. Like them, we are firm believers that art is a reflection of a country's values, that we as a Philippine institution must be responsible for protecting our culture as it mirrors how we see ourselves as a people. The depth and breadth of the fine art and valuable objects presented by Salcedo Auctions in The Well Appointed Life at The Peninsula continues this tradition.

The Peninsula Manila and Salcedo Auctions share a common heritage and an exciting future.

Sincerely,

Mark J. Choon
General Manager
The Peninsula Manila

MESSAGE

Santos Knight Frank is the Philippines' market-leading, full service real estate service organization, with an unparalleled 24-year track record. We have been pre-eminent in the evolution of the Philippine BPO sector, where our unrivalled expertise has seen the sector become a global success story - which in turn has fueled the domestic economy and powered the growth of private wealth.

Our global partner, Knight Frank, is widely regarded as the most prestigious brand in commercial investment properties and luxury residential real estate. We are able to showcase prime properties both in the Philippines and around the world and work with our high-net worth clients to complete complex cross-border investment transactions.

The Well Appointed Life has become a key event on the Manila calendar and we are very excited to partner with Salcedo Auctions in what promises to be a defining moment in the rapidly emerging high-end auction scene in the Philippines.

I have always been fascinated with the auction of rare and prestigious collectibles - a trait I inherited from my parents who, to this day, spend hours researching upcoming auctions and identifying the treasures on which they are prepared to bid against like-minded collectors. Most people perceive an auction to be a forum for the selling of art; however, I would always consider the auction to be an art form of its own - not unlike the acquisition and development of prime real estate.

I wish to thank Richie and Karen Lerma, and my team - Joey Radovan, Celia Rocamora and Bill Bailey - for making this collaboration possible.

With our focus on quality and the discerning client, Santos Knight Frank sees this partnership with Salcedo Auctions and the outstanding The Well Appointed Life event as the perfect opportunity to create a truly unique buying experience in the Philippines.

Rick Santos
Chairman & CEO

1930 FORD MODEL A COUPE

Two-tone Bronson Yellow over
Dark Thorne Brown

PHP 1,900,000 – 2,200,000

The Ford Model A Coupe represents an important turning point in the automotive industry as we know it. Designed to compete against the rising threat of General Motors, the Ford Model A was built as the successor to Ford's iconic Model T, and was the first Ford automobile to use a standard set of driving controls with conventional clutch, throttle and brake pedals, as well as a gear shift. It's powered by a water-cooled 201 cubic inch (3.3l), inline 4-cylinder engine, providing 40 hp, which allows it to reach a top speed of around 105 km/h.

This immaculately-preserved throwback to the late 20's has been modified with road-worthiness and safety in mind. To start, the battery has been switched from a 6-volt to a 12-volt system for better compatibility with modern accessories. The gas tank has been relocated to the rear, and is equipped with an electronic fuel pump. The brakes have been upgraded for added stopping power, and the flooring has been changed from wood to metal, to improve its durability and longevity. To eliminate overheating, the two-blade radiator fan has been upgraded to a four-blade fan, while the original Zenith carburetor has been replaced with a modern variant for improved reliability and efficiency. The original Zenith carburetor is still available and comes with the car, together with the original radiator cap, car manual, and a compilation of old footage and photographs of the Model A along with other automobiles in Manila in the 1930s, keeping its nostalgia and authenticity intact.

The painstaking care and devotion to this vehicle has led to numerous awards garnered in various car shows and exhibits as well as a feature on the Discovery Channel.

Owning a Ford Model A Coupe is owning a significant piece of automotive history; and this rare, road-worthy and award-winning example can be considered an impressive addition to any collector's gara

Awards:

Lot 702

1970 CUSTOM CHEVROLET NOVA "SPECTER"

Tierra del Fuego Gray

PHP 1,500,000 - 1,800,000

This completely rebuilt Chevy Nova is the only one of its kind in the Philippines. Its exterior has been completely customized to reflect the aggressive dynamism of a '69 Camaro, with round signal lights, and shaved front and rear bumpers. Camaro tail lights have been grafted to the rear to complete the look. Its grill, window frames and bumpers have been painted matte black to complement its Tierra del Fuego Grey paint job, further adding a touch of mysterious flair.

The car has more than enough grunt to match its exciting exterior, as its exhilarating exhaust note radiates from a completely rebuilt Chevy 5.7-liter, 350 cubic inch V8 engine. The engine is set up with a brand new 4-barrel 650 Edelbrock Carburetor, a black Chevy performance air filter with corresponding valve covers, and is outfitted with a high-energy ignition (HEI) distributor. Additional cooling is done by two electric auxiliary fans. Mated to the engine is a fully overhauled Turbo-Hydramatic 350 3-speed automatic transmission.

The entire interior features new upholstery, and has been completely redone in black to match the car's color scheme. The

dashboard features Comp II performance gauges by "Marshall". High-neck race-inspired leather seats have been set up over new carpets, together with a "B&M - Quicksilver" shifter. Comfort and convenience hasn't been compromised, as the car comes with air-conditioning, a 4-piece speaker system with an under-seat subwoofer, power steering, and front disc brakes.

When it comes to standing out from the rest and feeling the thrill of muscle car magic, it doesn't get any better, or more impressive than this.

Lot 703

1967 CUSTOM FORD MUSTANG FASTBACK "ELEANOR"

Pepper Gray

PHP 5,000,000 – 5,500,000

There aren't very many cars with an identity as distinct and as iconic as Eleanor's. Made famous from the "Gone in 60 Seconds" movie franchise, Eleanor is the only Ford Mustang in history to receive star title credit in a movie. This 1967 Ford Mustang Fastback is a complete embodiment of the car used in the year 2000 version of the film by Jerry Bruckheimer starring Nicholas Cage, with extensive work done both inside and out to produce one of the most faithful examples of Eleanor you'll find in the country.

The original paint has been replaced with DuPont Pepper Gray Metallic with DuPont Black Metallic stripes, which is the original paint used by the car in the film. A custom body kit has been installed which includes a modified front end, side air scoops, and wider body panels. New custom headlights have been installed, complemented by a 1967 Mercury Cougar tail light panel at the rear. Completing the look are its American Racing Shelby Cobra wheels. No expense was spared to make the cabin as authentic as possible. The old interior has been completely restored and reupholstered with new leather.

Powering the car is the same engine found in the original Mach1 Eleanor from the original 1974 film, with added modifications to increase performance. A Ford 351 cubic-inch Windsor engine has been stroked to increase its displacement to 377 cubic-inches, supplemented by a drivers-side mounted Novi 1200 Paxton Supercharger. More than a car, Eleanor has been the embodiment of the muscle car ideology for generations of motoring enthusiasts, and it's rare to find a car that perfectly reflects the same excitement and thrill that the original brought to the silver screen.

Lot 704

1964 VOLKSWAGEN BEETLE

Two-tone Black over Burgundy

PHP 750,000 – 1,000,000

There are millions of Volkswagen Beetles roaming the earth but only few are running properly and beautifully offering even more than they were originally designed to do. Such is this special Type 1 North American example. This example is powered by the correct air-cooled flat-4 Boxer 1.2-liter (1192cc) engine that produces 40 bhp @ 3,000 rpm and 60 lb-ft @ 2,000 rpm. The air flaps of the oil sump air filter works as it should. The hoses are the correct corrugated material. The engine compartment is covered with the correct black tar shroud. The gas tank had been cleaned and an anti-rust solution was applied to prevent corrosion and deterioration.

6-volt generators powered all VW Beetles up to 1966. For the sake of reliability, drivability, and consideration of installing air-conditioning, the vehicle has been upgraded to 12-volts with a VW-approved aftermarket 75 ampere alternator and Hot Spark electronic ignition distributor installed (difficult to tell the difference from the original 009 distributor).

TMI (California, U.S.A.) front driver, front passenger, and rear bench are covered in TMI (California, U.S.A.) period-correct upholstery with the correct pattern and piping. All carpets replaced with period-correct materials. The AM Sapphire 2 radio is period correct. The aerial antenna is period correct reproduction from Mexico. The speedometer was restored. The gasoline gauge was replaced with a new old stock part. Switches that were no longer aesthetically pleasing were replaced with period correct pieces. The steering wheel is original to the car. The dashboard handle bar is a reproduction period correct Perohaus from Aircooled Accessories in Derbysire, U.K.. The sun visor, all the related hardware, and the rear-view mirror is German new old stock. Window cranks, springs, and buffers were replaced with high quality reproductions. The dashboard and rear passenger ashtrays are original to the car. The brake handles and boots were replaced with German oem (original equipment manufacturers') parts. The heater ducts have been removed but the original ivory heater control knob was retained for aesthetics. Door entry guards are period correct reproduction accessories.

The German front bumper guard, towel bars, rear overrider bumper are original to the car. The original front bumper blade

was replaced with a nos (new old stock). Headlight lenses are original to the car. All brake light lenses and the amber front signal light lenses are Hella new old stock original. All trims were replaced with German show quality trims. The windshield glass, rear window glass, side window glass, passenger and driver window glass, passenger vent wing glass (with patina) are original to the car and properly marked "Sekurit." Window, rear window, and windshield trims are also all original to the vehicle. Both driver and passenger side mirrors are oem VW. The hinge covers are Perohaus reproductions from Aircooled Accessories. Door handles are original to the car with a nice patina.

Each wheel uses the original 5-stud hub which were all sanded down and powder coated (not painted) and highlighted with vintage ivory white trimmings painted over the powder coated finish. Some of the chrome hubcaps are reproduction pieces, while some are the original hubcaps, which were professionally sanded and re-chromed.

This is a usable Type 1 Volkswagen Beetle that has been painstakingly attended to with passion and great attention to detail."
