Eco-IRpro™ Infrared Thermometer

P/N: 12894-005-3

Eco-IRpro™ Infrared Thermometer, displays body temperature by measuring the thermal radiation on the forehead. The thermometer is consisted of infrared sensor, microprocessor & liquid crystal display

Country of Origin: China

ecoparksg

Technical Data Sheet

General Information

Parameters	Specifications
Size	149mmx77mmx43mm
Weight	172 g (without batteries)
Temperature Unit	Celsius degree Fahrenheit Degree
Storage Condition	Store under cool, clean and dry conditions. Avoid excessive heat (over 55°C)
Certification	FDA / CE

Properties

Characteristics	Results
Display resolution	0.1°C
Measuring Range	32°C-42.5°C
Precision	±0.2°C (Within 34.8°C-42.5°C) ±0.3°C (Out of range 35°C~42°C)
Measuring time	0.5s
Measurement Distance	3cm-5cm
Environment temperature	16°C-35°C
Operating Relative humidity	15% to 85%
Operating Temperature	10°C-40°C
Power	DC 3V (AA*2)
Auto Shutoff	15 sec
Memory Array	32 units
