NORWAY - KIRKENES

- **King Crab Fishing Trip** - A totally unforgettable experience awaits you on the frozen fjords of Kirkenes. This is your chance to catch, learn how to cook, and most importantly eat this mysterious creature. The Arctic King Crab is one of the most sought after meals in top restaurants, and yet here, you get to eat the best and the freshest, pulled from the fjord in front of your eyes. You all take part in helping to saw the hole in the ice and bring up the catch. You will see how the crab is prepared by your master guide. Although presentation is simple, the superb, white leg meat and claws with their particularly juicy and naturally sweet taste make this meal in a league of its own.
- **Northern Lights Aurora** - are very active in Norway & Finland as the country is well located for this natural wonder. It is an amazing experience to look into the dark sky and see the northern lights dance above in multiple colours. The northern lights are present all year around, but we can't see them unless the evenings and nights are dark. Also, the northern lights are above the highest clouds, which means that we need a clear sky to be able to see them. Cloudy skies are the main obstacles for observing the northern lights.

REMARK : Most Visible (When the skies are dark and clear sky) ~ Sep to Apr
