

Front-End Web Developer

Bangkok, Thailand

ABOUT TICKETMELON

Ticketmelon is a multi-purpose digital ticketing platform for events of all sizes, a place where you can discover great events or create your own and sell tickets. We empower organizers by providing them with the tools and knowledge to host exceptional events. With Ticketmelon, anyone can become an organizer.

We share a passion for innovation and working towards a common cause. Our engineers build meaningful products that simplify event organizing for all kinds of events, end-to-end. If you believe in what we believe in, join us in our pursuit in creating the greatest product of our lifetime.

WORK ENVIRONMENT

We are a result-driven startup, and we believe in putting people first. You'll be working with young, hard-working, and fun team members who are committed and passionate in their fields. We are looking for teammates who seek to grow in a fast-paced, vibrant environment and are problem solvers. Some of our perks include a 20-minute nap time, flat hierarchy and flexible working hours.
