

Online Hacking Training

Learn to exploit vulnerabilities on live websites

Duration: 4 weeks | Certified Training

About Hacking Training

The Internshala Online Training Program on Hacking will be a 4 weeks training program in Hacking and Internet Security. In this training, students will learn to hack live websites. Students will practice hacking on dummy vulnerable websites developed for this course. They will be able to practice password cracking, dictionary attacks etc. and will be able to exploit vulnerabilities such as stored and reflected XSS, session hijacking, file upload vulnerability, phishing, and CSRF & file inclusion vulnerability. Following are the detailed Table of contents of the training:

Table of Contents

1. **Web Basics:** *Learn the basic of the web and different types of web servers and proxies.*

Getting Started

- Introduction
- Initial Setup
- Web Servers
- HTTP Headers 1
- HTTP Headers 2
- Cookies and Sessions
- Databases
- Live HTTP Headers
- Proxies

2. **Cracking & XSS:** *Learn to crack passwords and hijack sessions.*

- Getting Started
- Introduction
- JS Basics
- Password Cracking
- Dictionary Attack
- Cracking Demo
- Gmail Cracking
- XSS Reflected
- XSS Reflected Demo
- XSS Stored
- XSS Stored Demo
- Session Hijacking
- Session Hijacking 2

3. **File Upload:** *Learn to upload files and phishing.*

- Getting Started
- Form Basics
- File Upload
- File Upload Demo
- Phishing

- Phishing Demo
- CSRF
- CSRF Demo
- File Inclusion
- File Inclusion Demo

FAQs

What is this training program about?

This is an online training program in the field of Hacking & Internet Security. Students will be trained in the basics of web technologies, Password Cracking, XSS, Session Hijacking, CSRF, File Upload Vulnerability, Phishing and other exploits and vulnerabilities.

What are the timings of this training program?

As this is a purely online training program, students can choose to learn at any time of the day. We will recommend a pace to be followed throughout the program, but the actual timings can be decided by students according to their convenience.

Will there be a certificate provided at the end of the training?

Yes, a certificate will be provided by Internshala upon completion of the training. Students may download a soft copy of the certificate through our portal.

Who can join?

College students and recent graduates are eligible to join this program.

How will the training be imparted?

Training will be delivered using state of the art online tutorials and interactive exercises.

How would you solve my doubts and queries?

We shall have an online doubt clearing system (live chat + forum) in place to address your doubts.

What is the duration of this training?

This is a 4 weeks training.

Will there be any practical aspect of this training?

Yes. You will be able to practice exploiting vulnerabilities on dummy websites created for this training program.

I am a beginner/advanced user, is this training program for me?

This program would be better suited to beginners who have no prior knowledge in this field.

Are there any pre-requisites for joining this program?

This program is for beginners. There are no pre-requisites.

What are the benefits of joining this training program?

Hacking & Internet Security is one of the hottest technologies in the industry today. At the end of the course, the student would have enough skills to exploit certain vulnerabilities on live websites.🔒

What would be training content?

The training will be based on the basics of web technologies, Password Cracking, XSS, Session Hijacking, CSRF, File Upload Vulnerability, Phishing and other exploits and vulnerabilities.

Will I be able to download the course content?

If you sign up for this course as an individual course, you can download entire course content towards the end of your training. The download link will be available on your home page 18 days after the start of your training till the end of your training.

Can the material be used by a group of students?

No. These trainings are meant for individual users. Multiple users will not be allowed to access the portal using the same account.

If you have any queries or doubts regarding the training, please write to us at trainings@internshala.com or call us on +91 85860 80747.
