

"Person who risks nothing, does Nothing, has nothing and is nothing":

Once someone inquired a farmer if he had planted rice for the season . The farmer replied, "No I was afraid it wouldn't rain".

The man asked, "Did you plant wheat?"

The farmer replied, "No I was afraid insects would eat the wheat".

Then the man asked," As a farmer what have you planted?"

The farmer said, nothing I played it safe"

Most of us are like this farmer. We lose our opportunities because we were not ready for it

It is the risk takers who move ahead with their eyes open

Hence we can say," not making the attempt is the biggest mistake than making the attempt and failing".....
