

We are aiming this app at the age of 6 to 12. We aimed it at that age because we believe that when they get taught young they will know what to do when they are older. It's also because they are all starting to get the apps that cause Cyber bullying in the first place. Our app is going to cost nothing because we want everyone to learn this. We know that there are 2,015,017 so we think that about 80% of kids get internet so a lot of primary school kids can play our app.
