Notes:

(1) Net Transaction Value ("NTV") represents the sum of NTV from services and NTV from Native. NTV from services represents the monetary value paid by consumers towards services availed on our platform (gross of taxes, net of discounts, across the Urban Company consumer application, mobile website, net of cancellations). It does not separately include revenue from sale of products sold by us to service professionals as the amount charged to the consumer includes the cost of products to be used during service delivery. Further, it does not include tips given to service professionals by consumers. NTV from Native represents the monetary value of Native products (i.e., water purifiers and electronic door locks) paid by consumers across the Urban Company consumer application, mobile website, third party e-commerce sites and third-party retail stores. The price of the products sold on third party e-commerce sites and third-party retail stores are assumed to be same as price of the products sold on Urban Company consumer application (gross of taxes across the Urban Company consumer application, mobile website and third-party retail stores, net of order cancellations/ returns and discounts, gross of channel commissions).
