## ARCHITECTURE

CK Architecture offers architecture design services for any commercial or residential project requirements.

Our lead designers are certified architects from different parts of the world with a proven track record.

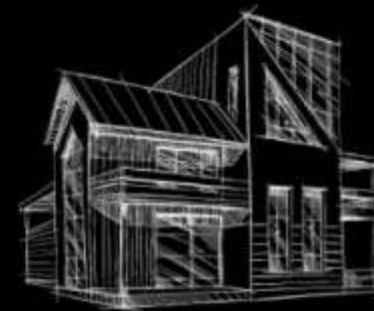

We offer full design services including concept, schematic detailed design, specifications and BOQ, tender package and site supervisions works.

## INTERIOR DESIGN

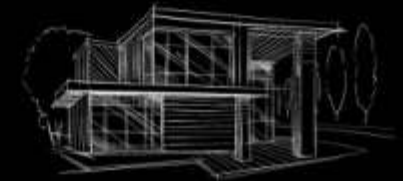

We can offer a complete ID service from the initial design brief to the handing over the building/space.

In our Dubai office we have in house designers work for your organization from preliminary design till handover by integrating your ideas in to concepts to meet your needs for a unique environment.

## FIT-OUT WORK

Along with complete design services our core business is to provide turnkey solutions for our clients with a single point of responsibility where all the aspect of the project has been undertaken from design to procurement to execution and DLP/handover.

## OUR PROCESS

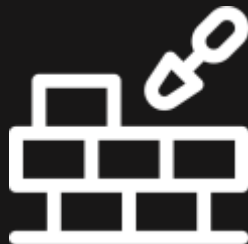

We have standart process that we follow for our works, which is specifcly modified based on the project which starts with design brief and continues as follows: research, feasibility, initial proposal, detailed design, tender, construction, testing and commissioning, handover, maintenance & records.

3 International Offices

100+ Design Employees

200+ Skilled Site Personnel

Award Winning Designs
