# Mission

---

## **We are mission focused.**

**C**reate a culture of constant improvement, innovation, and growth.

**E**arn the continued trust of our customers, partners, suppliers, and stakeholders, through our daily actions.

**B**ring our products to markets where they are needed the most.

**B**uild a local presence, including last mile delivery, and value-added services such as processing and packaging.

**E**nable people in the communities where we operate to better their lives.

**P**rofits are an outcome of successfully executing our mission.

# QP

# QP

## Significant Scale

Significant Scale

World class food manufacturing

Vertical integration

Sustainable production

All products are produced  
to the highest EU standards  
as well as international certification  
including Halal certified

A family of exclusive brands,  
available only from QP

# Ukrainian Agriculture and Manufacturing

Ukraine has a rich agricultural history,  
and the ideal environment for high quality crops

Ukraine is famous for some of the most fertile soil in the world,  
known locally as 'black gold'

We grow our own wheat, corn, sunflower seeds, and soya beans,  
enabling us to guarantee the highest level of quality

With our own fully integrated raw material supply,  
we control the entire process starting from our farm,  
and ending on your customer's dinner plate

Our manufacturing includes dairy plants, wheat mills,  
sunflower oil processing and bottling plants, poultry farms,  
and pasta production

# Malaysian Oils & Fats

Malaysia is a global leader in the production, processing, and export of palm oil and related products

Malaysia currently accounts for 39 % of world palm oil production and 44% of world exports

If taken into account of other oils & fats produced in the country, Malaysia accounts for 12% and 27% of the world's total production and exports of oils and fats

Being one of the biggest producers and exporters of palm oil and palm oil products, Malaysia has an important role to play in fulfilling the growing global need for oils and fats sustainably

QP has expanded in Malaysia and will continue to invest in this sector to meet growing global demand for oils & fats

# Our Quality Promise

Our manufacturing plants are based on both rigorous implementation of food safety processes, as well as quality assurance systems, to give our customers the highest level of confidence

- All products can be certified Halal
- All products NO GMO
- All products produced to EU standards
- All fresh milk for our products produced internally
- All our chickens are slaughtered to order and fed with only vegetarian feed
- All our sunflower oil is 100% pure

## Top Quality

# MSPO

---

The Malaysian Sustainable Palm Oil (MSPO) standard has been made mandatory by the end of 2019. The MSPO Certification provide a credible sustainable and responsible management, to bring about positive social, environmental and economic impacts, while minimising the negative impacts, particularly on its people and the environment

The Roundtable on Sustainable Palm Oil (RSPO) are a non-profit organisation that unites stakeholders from the 7 sectors of the palm oil industry: oil palm producers, processors or traders, consumer goods manufacturers, retailers, banks/investors, and environmental and social non-governmental organisations (NGOs), to develop and implement global standards for sustainable palm oil. The RSPO has developed a set of environmental and social criteria which companies must comply with in order to produce Certified Sustainable Palm Oil (CSPO). When they are properly applied, these criteria can help to minimize the negative impact of palm oil cultivation on the environment and communities in palm oil-producing regions

QP strongly supports the efforts of both the MSPO standard and the RSPO, and we are working vigorously to achieve 100% CSPO

# Wheat flour

## PRODUCT LIST:

- Premium grade multi purpose wheat flour
- Extra grade multi purpose wheat flour
- First grade multi purpose wheat flour
