Commercial

Our skilled craftsmen have produced numerous bespoke interior solutions to consistent standards for private residential clients and business development projects including many in association with Designers, Architects and other corporate professionals.

To the forefront of our clients ambitions is the appeal of JAS Concepts project commitment though the range of applied craft skills and contract works experience embedded in all our projects.

## ABOUT US

Established 5 years ago, JAS Concepts Interiors have developed the business on their consummate reputation for the exacting standards of their project works, 'in house' craftsmanship and overall contract expertise to ensure a complete professional service.

From our workshops based in DUBAI, we have completed an extensive range of projects throughout the capital, the home counties and occasionally overseas. From workshop to site we ensure the same high standard and comprehensive project package from concept to completion.

From exclusive apartments to high street salons, our company have a consummate range of skills and organisational abilities to fulfill all your interior refurbishment ambitions.

On site or in our own workshops, our professionalism and high manufacturing standards are rigidly maintained to offer the most cost effective and comprehensive interior services which include:-  
Project works –the collaboration with the various trades ensure a management of the works and contingency works for the optimum development of the project within the specifics of the scheme design and site parameters.

Comprehensive workshop direction, quality materials selection and site management ensure effective logistical control of production works and standards for site installation works

## RESIDENTIAL INTERIORS

Residential interiors are a specialist area of interior design requiring innovation and a bespoke service to achieve the definitive and individual criteria required by private clients.

We have a portfolio of exclusive projects for many distinguished clients where the specific attention to design style detail and a demanding high quality of workmanship has been paramount.

From major renovation works to property redecoration and maintenance we have all the required craft skills and technical background to undertake projects large or small with total professional competence and integrity.

## COMMERCIAL INTERIORS

JAS Concepts Interiors portfolio of commercial projects includes many distinguished clients where the specific attention to design style detail and a demanding high quality of workmanship has been paramount.

Our team are experienced and resourceful professionals, who will work with you (or your designer) to fulfill and enhance your design project ambitions.

Whether working on site or in our own workshops, our high manufacturing standards are rigidly maintained to offer a cost effective and comprehensive service.

## EXHIBITION STANDS

We design and deliver powerful events & exhibition experiences through innovative stand design, breathtaking graphics and on-trend furniture.

We believe in results and strive to exceed expectation, each and every time. Creating unforgettable memories and thought-provoking design is what we do best.

We are renowned Events & Exhibition builders and we love what we do, and we know you will too.

## FURNITURE'S

Our design team carefully design and produce high-quality furniture to ensure we are up to date with current trends.

Our products are available in a variety of sizes and colors, so you are guaranteed to find something that suits your requirements.

All of our furniture is maintained to an excellent standard and can be delivered to wherever you want, whenever you want. If you can't find what you are looking for, we also offer bespoke services where we design and build your furniture to your exact specification.

Designing our clients imagination into reality.

Product designing  
3D MAX AutoDesk, Graphics Designing,  
and Drawings for Submission etc.
