problems.**

Business Challenges

Every business faces unique challenges during its operations; however; there are common challenges that every business goes through and it is directly associated to the size of operations and the phase that the business is going through.

Understanding where you are will help you understanding your challenges.

We translate your challenges to numbers that you can read, evaluate and modify to success

A decorative graphic on the left side of the slide. It features three hexagons: a large red one at the top, a smaller white one to its left, and a medium grey one at the bottom. Overlapping the bottom of the red hexagon is a photograph of a person in a white shirt and dark vest operating a cash register. The person's hands are visible, counting money and handling a receipt.

Business Challenges

Are you a business idea?

During this phase you would need initial data to support you in taking the decision to start your business. Below are examples of the services you will require:

- Feasibility study
- Capital appraisal analysis
- Policies and procedures implementation
- Breakeven analysis

Business Challenges

Did you just start business this year?

The first year is always the hardest year, a business is still new and learning from the experience. Trial and error phase, you will need our support in:

- Accounting Consultation
- Accounting system/process setup
- Tax assessment
- Monthly accounting and reports presentation and analysis

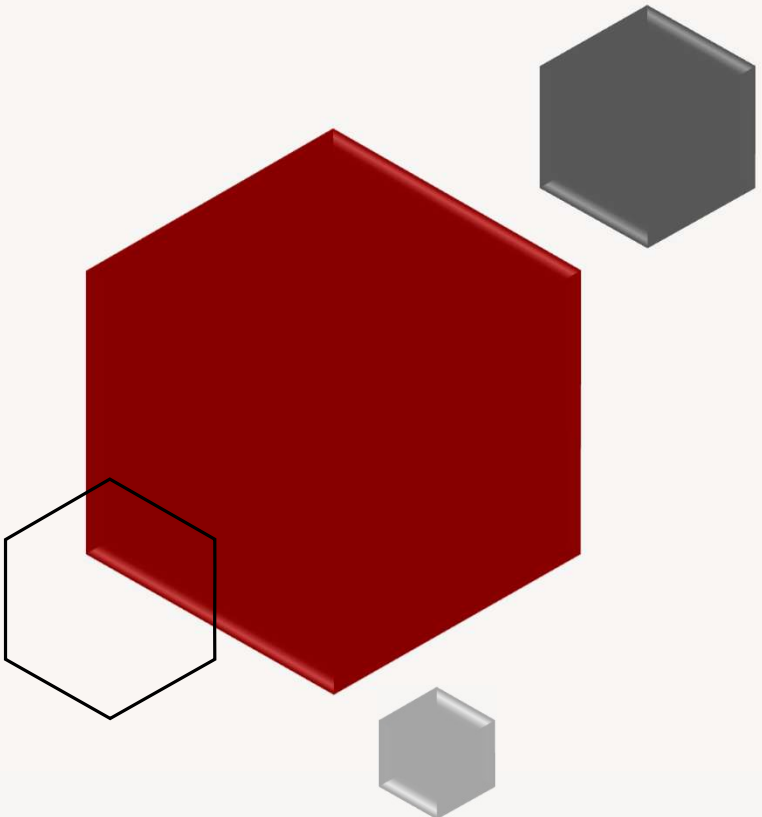

Business Challenges

Are you over 2 years in business? What are the result you have achieved so far?

Now that your business is up and running, it is time to measure success and keep all aspects in streamline

- Yearly Audit
- Backlog assignments
- Financial ratio analysis and working capital analysis
- Comparative report on sales performance and expenses

“Business opportunities are like buses. There’s always another one coming.”

Richard Branson
