INTRODUCTION

A DEWA Approved Electrical Contracting Company

Design, Supply, Installation, Testing and Commissioning in compliance with DEWA's requirements for electrical installations.

About Us

AMPCORE is a DEWA approved electrical contracting company based in Dubai. We strive to provide fast and efficient service with uncompromised quality and industry standards to achieve 100% customer satisfaction.

We have extensive knowledge of existing electrical systems in the field of supply and installation, servicing and fault finding through a vast experience in Industrial, domestic and commercial sectors such as office fit-outs, factories, schools, retail premises, restaurants, health-care clinics, villas, etc.

Licensed, bonded and insured, we provide quality workmanship with reasonable prices. To add to our strength, we have a team of experienced Electrical Engineers and Master Electricians on site to take care of the customer's requirements.

Our key management personnel and labor force have the experience of 5-20 years in the same industry possessed from different organizations active within Dubai.

We depend on our loyal employees to build our name and legacy and they expect that our satisfied customers will speak about us in the years to come.

Mission

To be a team of exuberant and successful professionals through quality workmanship and strong business ethics generating fully satisfied customers.

Gather projects regardless of the size. Study thoroughly, plan in advance and execute at its best.

Core Value

One of our core values is employee friendliness and blissful working environment, which we believe, will rightly contribute to all aspects of life and a good business environment.

Our Expert Team

It's quite simple. At AMPCORE our most valuable asset is our employees - a team of talented and courteous professionals dedicated to providing the highest quality electrical services to our commercial, residential and industrial customers coupled with integrity and friendly disposition.

As professionals, we are accountable for all that we do. But our people strive for more. They are always committed to making every effort to exceed the customer's expectations. We believe that such commitment and dedication on the part of our employees is the result of our continued success and maintaining business association with existing clients as well as our rapidly growing customer base.

Safety Training

Electrical Safety & Power Tools Training

Experienced employees often know more about safety problems and solutions than managers do. Still, our people are sent to professionals for better awareness & training, Safety matters.

Risk assessment is the first step in recognising what the risks on each construction site might be, whilst continuing to follow professional advice is also essential to ensure that no potential risk is forgotten or ignored.

All our employees are given specific training on the hazards of their jobs and how to do their jobs safely.
